

Photobook 123 Instructions

During the first start of the photobook123 Software you will be asked to type in the code in order to Activate the software.

1. Please enter the code, press **OK**

Code: 0030000653

After starting the program, you will be welcomed by the Start assistant.

**ONCE ACTIVATED
PLEASE FOLLOW INSTRUCTIONS
FROM HERE ON.**

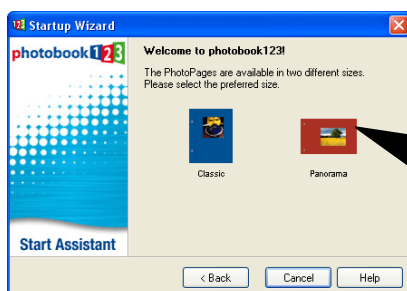

2. **Select New Blank Photobook:** Click on the blank page icon for the next step.

3. **Click on the Photobook123 page**

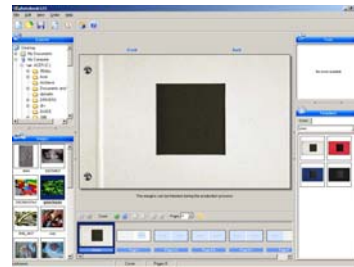

4. **Click on the Classic/Panorama Option**

Ignore the Cover Selection.

Choose your cover Instore.

5. **Change your amount of pages to 20**
eg: 20 pages = 10 pages Double Sided

you are paying for 10pages, extra pages @ \$3.00each

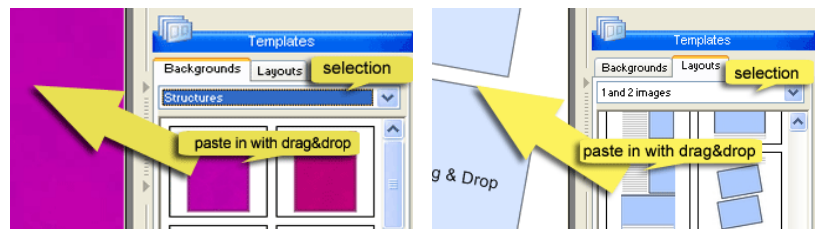

6. **Select page 1**

(Highlight so it is blue) You can now select the **Backgrounds and Layouts** on the right. You drag & drop the background/layout onto your pages.

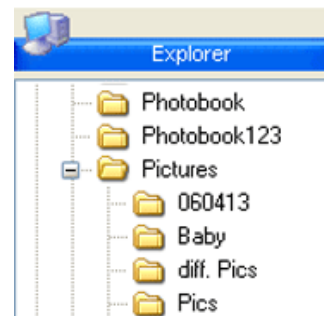

Backgrounds:

As we need to add a small border around page to fit our cover size (you will not see)

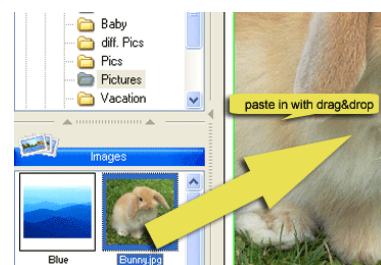

Please choose Black/ White or a Solid Colour for the Background.

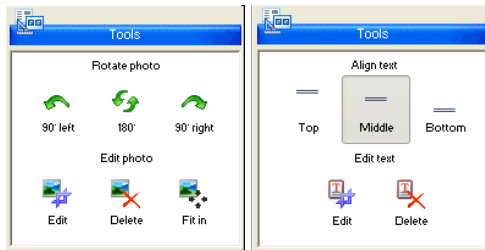

7. **Find your images** using the Explorer option in the top left hand corner of your screen

8. Your Images are shown in the bottom left hand corner, **just Drag and Drop Image onto the page**

9. To Edit your images/text

90° left: Rotates image 90° to the left.

180°: Rotates the image 180°.

90° right: Rotates the image 90° to the right.

Fit in: Image is zoomed in or out to fit into the frame.

Edit: Image is opened in the image editor.

Delete: Image is deleted.

10. To Enter Text Double Click the text box on the layout, To Edit text

Top: Text is aligned at the top edge of the space-holder.

Middle: Text is aligned in the middle of the space- holder.

Bottom: Text is aligned at the bottom, edge of the space- holder.

Fit in: Text will be minimised or aggrandised so that it will fit into the space- holder.

Edit: Text is opened in the text editor.

Delete: Text is deleted.

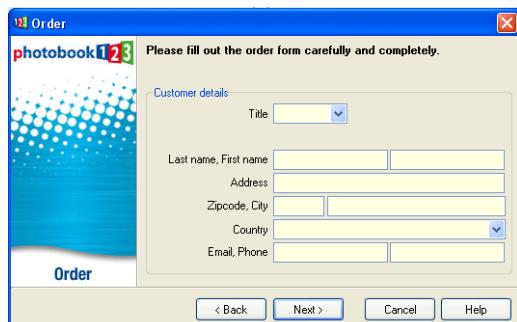

11. Once you have finished editing/laying out your images on all your pages

12. **Save your photobook to your computer.**
