LEICA CL

The Leica CL is the conscious translation of traditional values into a modern-day concept. A decision made to make photographic excellence accessible to everyone. Simple and fast to use, the Leica CL concentrates exclusively on essentials and delivers pictures in outstanding quality. A high-resolution, 24 MP sensor, a Maestro II series processor and fast autofocus with 49 metering points guarantee the picture quality so typical for Leica.

BODY ONLY
\$4298 | BODY + 18MM LENS
\$5998

LEICA M10-P

The Leica M10-P takes the traditional understatement of the M series to a new level. Connoisseurs will appreciate the fine distinctions between the M10-P and the M10. These include the quietest shutter of any M camera ever – a seemingly minor detail that can nevertheless make the difference between a good picture, and a great one.
