PHOTOSATIN PREMIUM RC 270GSM

PhotoSatin Premium Resin Coated consists of an alpha cellulose acid-free art paper coated with a structured polyethylene and a microporous receiver layer. This exceptional photographic paper has been designed to comply with the highest lifespan requirements. The surface aesthetic of PhotoSatin Premium RC is reminiscent of the original photochemical papers traditionally associated with the Baryta market. This paper gives softened reflections on the photograph. It is a great choice for black & white and colour photography.

We have a selection of Canson Fineart papers in-stores.

SECOND HAND EQUIPMENT

It may be you have never considered buying used cameras & lenses for educational use, but consider these advantages.

- We may be able to find that elusive piece of equipment that was just outside your existing budget.
- We may be able to upgrade your proposed digital purchase with a step up to the next quality up.
- We may have, or be able to find that elusive lens or accessory you are missing for your existing kit.
- We have piles of batteries, chargers, USB cables, tripod release plates & all those things that go 'missing' at school.
- Film is back, if you want to re-instate your school darkroom we have used enlargers, film SLR's, and chemistry & paper to get you going again.
